

Get on top... JCAHO's Statement of Conditions® ...and stay on top!

Building Analysis

Documentation

SOC "First-Aid"

Equivalencies prepared as warranted

Presentation to JCAHO Surveyor

Maintenance and Follow-up

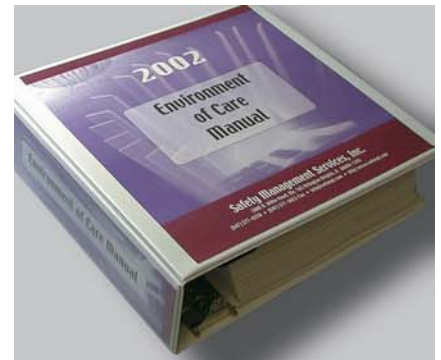

It's an uphill climb staying on top of JCAHO's and NFPA's ever changing codes and requirements and keeping your Statement of Conditions (SOC®) current. With Safety Management Services, Inc., you're always ready for a JCAHO survey.

SMS, Inc. provides a Life Safety Code® analysis survey, creates parts 2-3-4 of JCAHO's SOC document and gives you the Plan for Improvement (PFI) information you need to meet the standard. We also help you correct and report code violations, and provide with each survey a copy of our SOC Builder™ software to keep you on top of the SOC process. We'll even provide on-site support during a survey.

Stay on top of your SOC, visit "safemgt.com/SOC"

WE WROTE THE BOOK!

If you want to meet JCAHO's requirements for Environment of Care® standards, you need the book written by the people who helped create the standards. This 750+ page manual includes policies, procedures and examples from all 7 intent statements.
